Drive Your Elegance

LEPAS

Inspired by the Leopard

Symbolizing the perfect fusion of speed, power, and elegance

The brand name implies a "leap" across regions and cultures

Reflecting a global vision and a borderless mobility experience

Inspiring urban explorers to pursue a lifestyle of elegance and taste

The brand proposition of LEPAS is "Drive Your Elegance"

To grace the world with brilliance, one must first master life with elegance

The LEPAS L4 is not just an agile vehicle

It is a portable fashion accessory

Not just for use

But also for the mood

Add a little more color to life

Leopard Aesthetics

Stylish Color-Contrast Body

Inspired by the modern light and shadow of alternating day and night in the city, the roof and body break the monotony with a striking color contrast, outlining visual layers. The intersection of the two colors is like a naturally transitioning fashion collage, with personality leaping out from subtlety, making every trip a focal point.

Leopard Shadow Agile Waistline

The high-curvature waistline running from front to rear, combined with detailed wheel arch sculpting, is inspired by the light and shadow trails of a speeding leopard. The waistline follows like a shadow, extending smoothly from the fender to the rear, outlining an agile silhouette ready to spring. Amidst the interplay of light and dark, the lines flow lightly, endowing the body with a visual rhythm as swift and elegant as a leopard's shadow.

*Body color and technical parameters are laboratory data and are for reference only.

Flying-Wing Leopard-Eye Headlights

The headlights are the soul of the design, with a sharp gaze that commands respect without being aggressive.
The Flying-Wing Leopard-Eye Headlights are inspired by the vertical pupils of a leopard, and the LED light clusters are as sharp as lightsabers, dynamic and keen, yet full of technological sense.

Diamond Shadow Flowing Grille

Inspired by the brilliant facets of diamond cutting and the rhythm of flowing light and shadow, the exquisite dot-matrix grille features countless points of light that leap and flicker, reflecting a brilliance that is both agile and delicate, fully showcasing a stylish dynamism.

Eight-Layer Pearlescent Color-Shifting Paint

Derived from the deep light and shadow of multi-layered pearlescence, it undergoes eight layers of precision spraying, infused with color-shifting pearl technology. It reflects a brilliant luster like a mirror, combining excellent scratch resistance and durability, with an exquisite texture that remains as good as new.

*Body color and technical parameters are laboratory data and are for reference only.

Wraparound Gull-Wing Cockpit

The driving and riding space is enveloped in agile, elegant, and soft lines.
The stylish and minimalist center console layout cleverly balances an open view with a technological texture.
Enjoy exclusive comfort and a sense of security upon seating, making every trip exquisite and effortless.

13.2-inch Tech-Waterfall Center Console Screen

Inspired by the smooth curves of a mountain waterfall, the 13.2-inch large screen extends vertically, cascading naturally like a stream of water through the center console. Technology and natural rhythm merge into one, delivering an immersive interactive experience.

Exquisite Vanity Mirror

Soft LED fill light restores true skin tone; the HD mirror with dual-color adjustment allows for easy makeup touch-ups anytime, whether at dawn, dusk, or in a tunnel. The thoughtful wide-view design makes every glance in the mirror a poised start to an exquisite journey.

Spray-Free, Ultra-Eco-Friendly, Skin-Friendly Material

Abandoning traditional spraying processes to eliminate volatile substances, the air inside the cockpit is as fresh as nature; the surface feels as delicate and gentle as a baby's skin, softly fitting every ride. It is comfortable for long contact and cares for the sensitive skin of family members. Combining eco-friendliness with skin-friendliness, it turns every trip into a reassuring and healthy journey.

*Body color and technical parameters are laboratory data and are for reference only.

Intelligent Fun Drive

Stylish Intelligent Interactive Cockpit

The stylish intelligent cockpit is equipped with a class-leading automotive-grade chip, delivering powerful computing performance.
The intelligent voice interaction responds quickly, allowing you to control cockpit functions with a single command.
Creating a stylish and agile travel experience with intelligent convenience.

540° AVM

5 ultrasonic sensors, 2 corner millimeter-wave radars, 4 surround-view cameras, and 1 multi-function camera work in synergy to build a 540° AVM vehicle situational awareness system.
It clearly displays the surrounding and chassis conditions when meeting cars on narrow roads, driving over potholes, or parking at low speeds, eliminating blind spots and ensuring safety and composure at all times.

50W Ultra-Fast Wireless Charging

Place to charge, farewell to cable constraints.
Quickly replenishes your phone's battery in just a moment, allowing you to depart with a full charge even with fragmented time.
It intelligently recognizes compatible protocols, and charging with a case is also unobstructed, ensuring ample power during your drive for an efficient and worry-free mobile life.

Intelligent Fun Drive

L2 Assisted Driving

17 ADAS Functions

- Adaptive Cruise Control (ACC)
- Drive Away Inhibit (DAI)
- Integrated Cruise Assist (ICA)
- Automatic Emergency Braking (AEB)
- Forward Collision Warning (FCW)

- Rear Collision Warning (RCW)
- Rear Cross Traffic Alert (RCTA)
- Rear Cross Traffic Braking (RCTB)
- Door Open Warning (DOW)
- Lane Change Assist (LCA)
- Blind Spot Detection (BSD)
- Intelligent Evasion System (IES)
- Traffic Jam Assist (TJA)
- With Emergency Lane Keep (ELK)
- Lane Keeping Assist (LKA)
- Lane Departure Warning (LDW)
- Lane Departure Prevention (LDP)

*Body color and technical parameters are laboratory data and are for reference only.

Intelligent Fun Drive

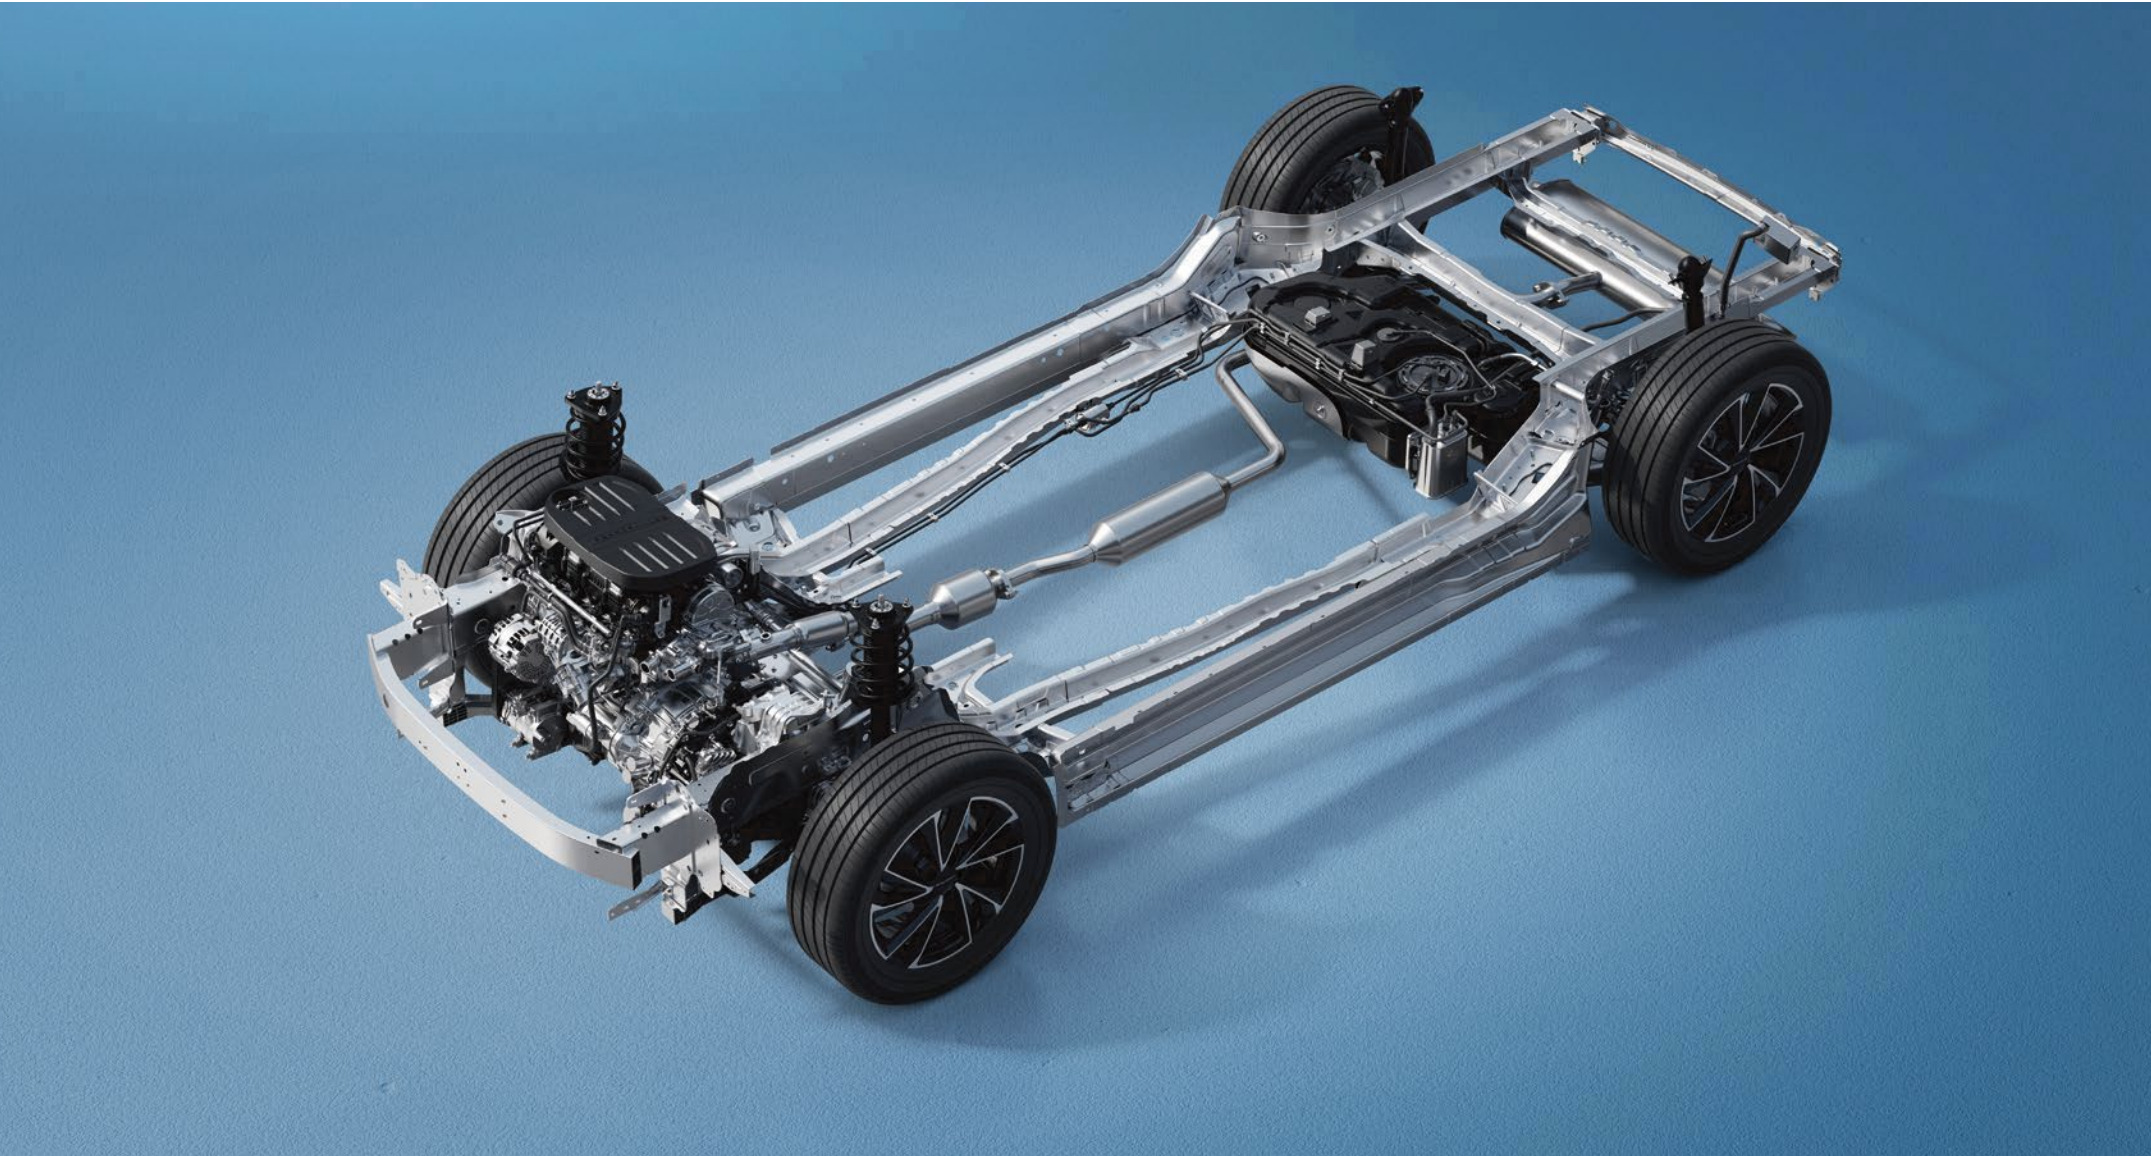

EASY TURN Flexible Steering

Without additional hardware, and only through intelligent software logic optimization, the 2700mm ultra-long wheelbase can achieve an ultra-small turning diameter of 10.55m. Making a U-turn on narrow city roads, village alleys, or sharp mountain bends can be done in one go without reversing; when activated in off-road conditions, it adds more ease and fun. Effortless turning, driving pleasure on the go.

Intelligent New Energy Platform

A global intelligent modular platform built by integrating global technological system capabilities, featuring ultra-high bandwidth and a fusion of multiple energy forms.
① Strong compatibility and expandability, compatible with all powertrain sizes; ② Built on a new energy platform for a more optimized spatial layout;
③ All-new E/E architecture, high vehicle intelligence, gets better with use, gets better with driving.

Flexible Space

2700mm ultra-long wheelbase in its class x 861mm rear space

The 2700mm class-leading wheelbase provides 861mm of spacious legroom in the rear, allowing for comfortable leg crossing and stretching.
The long wheelbase does not sacrifice flexibility, and combined with EZT flexible steering, it achieves both spaciousness and agility.
Travel with your family without getting tired on long journeys, enjoying spaciousness and freedom on every trip.

31 storage compartments throughout the vehicle

Water cups, mobile phones, receipts, sunglasses... all small personal items have their own place. 31 exquisite storage compartments are designed throughout the vehicle, located on the doors, center console, and next to the seats, all within easy reach. Whether it's your commute coffee, travel snacks, or your child's toys, everything can be stored in an orderly manner. Keep the car interior tidy and make every trip composed and organized.

Extra-large trunk space

Easily accommodates the whole family's luggage, camping gear, or daily groceries. The depth and width have been carefully optimized, with a lower and wider opening, making it effortless to place and retrieve heavy items. When the rear seats are folded down, the space can be expanded into a large, flat area, accommodating items for moving, road trips, or skiing equipment. No need to make compromises every time you set off.

Flexible Space

Stylish and Exquisite Sunroof

The transparent glass and ultra-narrow frame design bring the sky into the cabin, opening up the view.
Open with one touch, and let the breeze and sunlight flow in naturally; at night, the starlight accompanies your drive like a poem. The exquisite embedded craftsmanship integrates with the smooth lines, allowing you to encounter scenery and romance every time you look up.

Cloud-like Comfort Seats

Three-level ventilation keeps you cool and sweat-free in summer; intelligent heating provides warmth like a hug in winter.
Advanced quilting technology outlines exquisite diamond patterns, providing a delicate, soft, and elastic touch, as if sitting on a cloud. On every journey, your body is gently supported, enjoying a pleasant ride suitable for all seasons.

Mobile Security Fortress

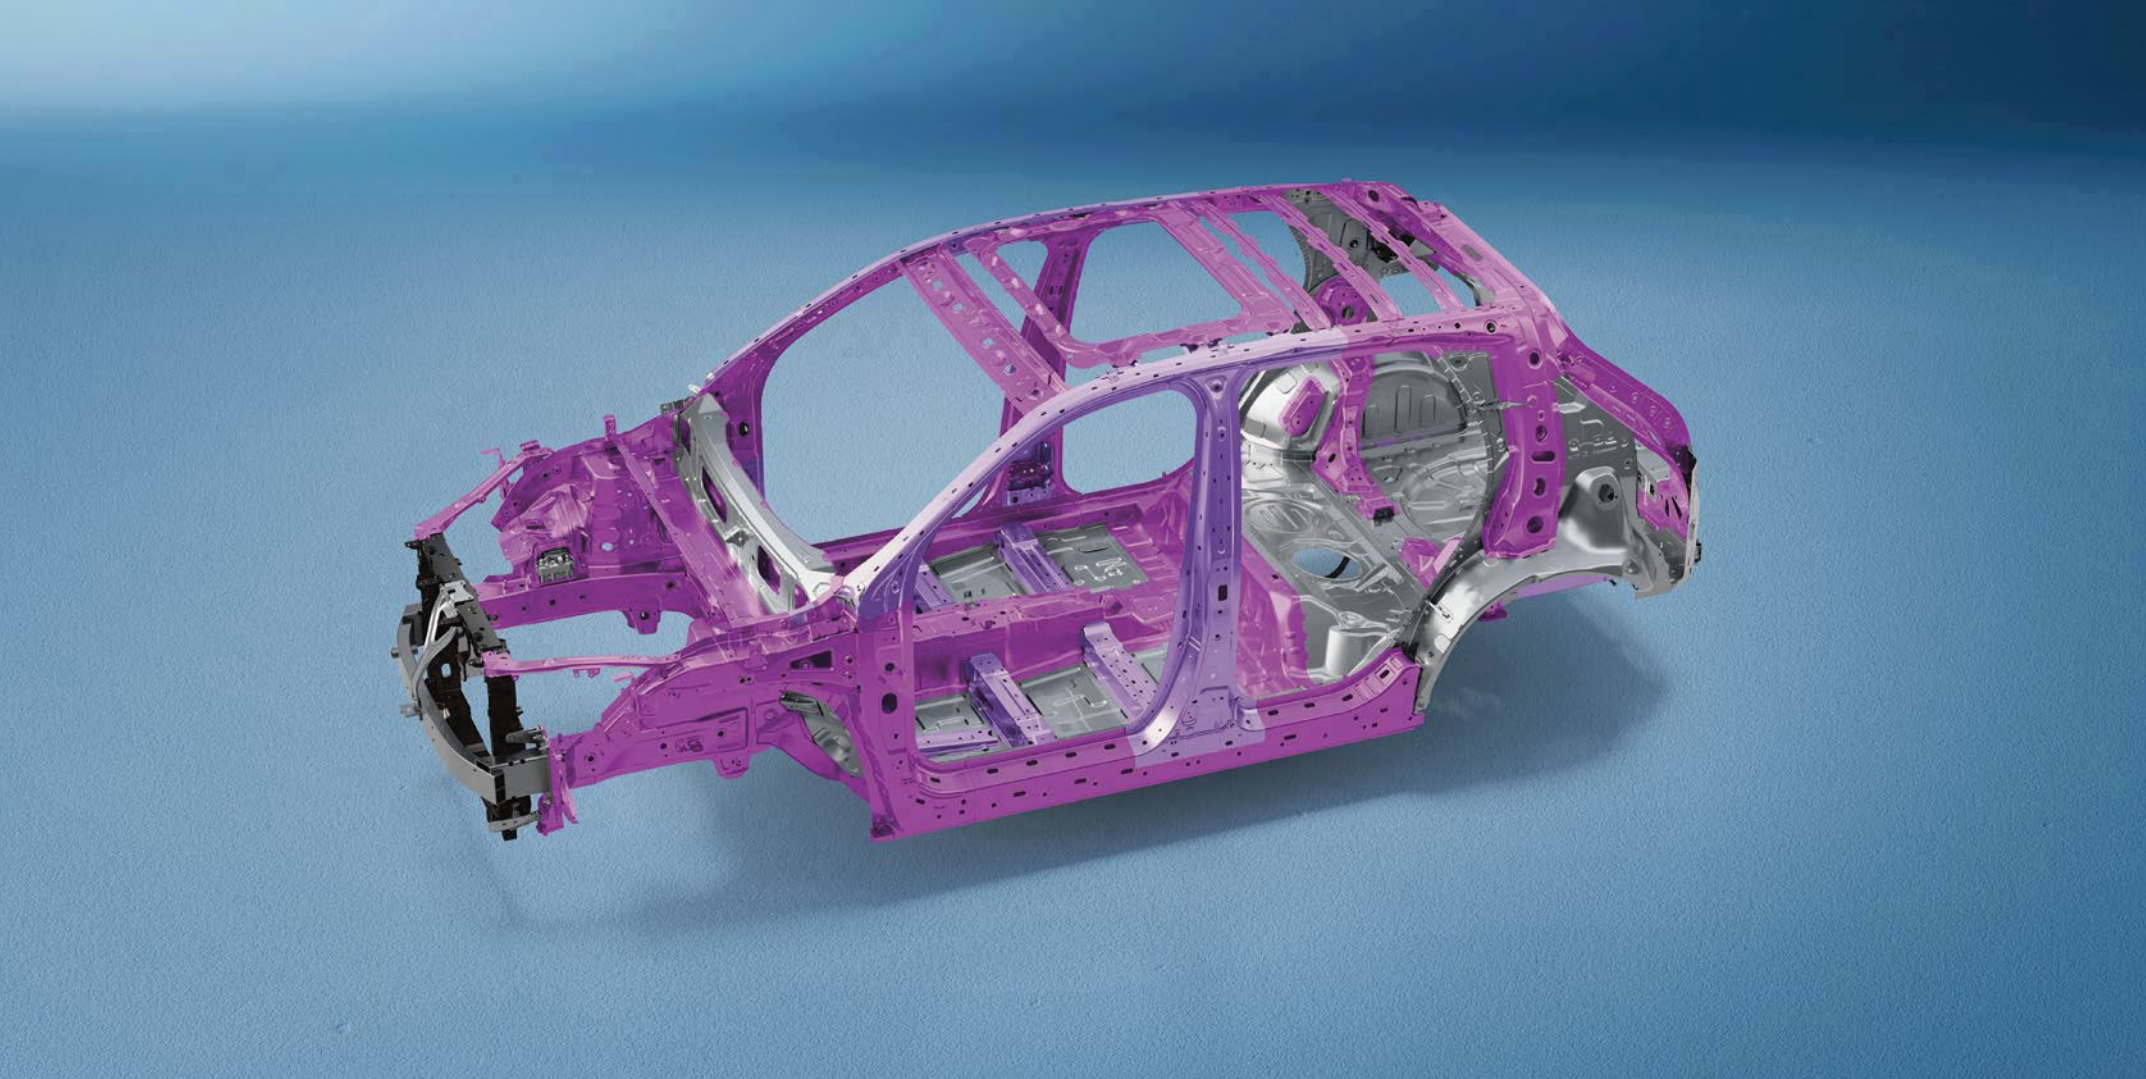

6-second pressure retention for rollover protection, 2040mm ultra-long side curtain airbags

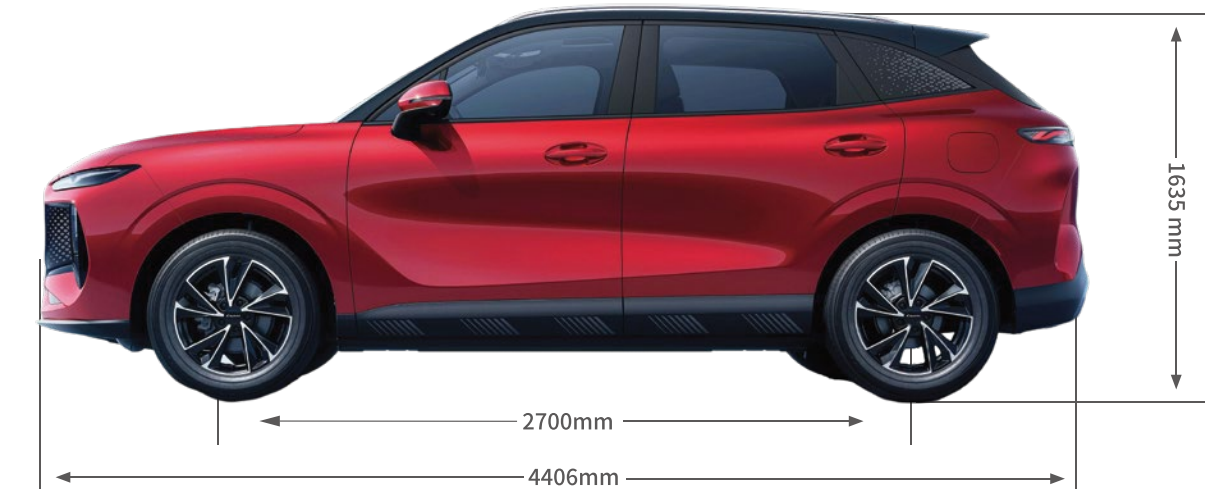

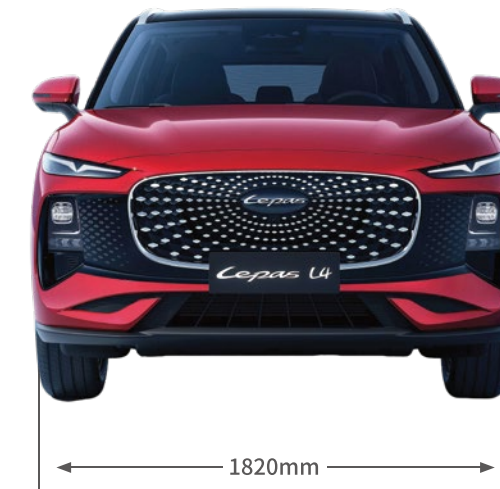

Over 6 seconds of pressure retention provides lasting protection during a rollover; the 2040mm ultra-long curtain airbag extends from the A-pillar to the D-pillar, covering both front and rear rows without any blind spots. In the event of an accident, the airbag deploys instantly like a strong shield, providing comprehensive cushioning for the head. Provide an extra layer of reassurance for family trips, ensuring safety is always online.

Steel Frame Guardian Structure

100% high-strength steel coverage on key collision paths, building an invisible safety frame; the A and B pillars are made of 1500MPa hot-formed steel, resisting impacts like a rock; the vehicle body is composed of 60% high-strength steel, providing both rigidity and flexibility for energy absorption and crash resistance. Every trip is protected by an invisible suit of armor, offering hardcore safety you can rely on with confidence. With a body torsional stiffness of 20500 N · m/deg, it builds a mobile steel fortress for occupants with hardcore strength that exceeds class standards.
